

## RIDE-ON STRIPPER

## BMS-220ADB

### TECHNICAL DATA

<i>Working width</i>	152mm – 690mm (depending on the type of blade)
<i>Battery Power:</i>	12,8 V gel cell battery / Running time up to 10 hours.
<i>Weight</i>	450 kg (without options or accessories)
<i>Dimensions L / W / H</i>	1345mm / 620mm / 1120mm
<i>Drive system / speed</i>	Electrical / up to 37 m/min
<i>Machine type</i>	Ride-on
<i>Application</i>	Hardwood parquet / ceramics / linoleum / vinyl / carpet / adhesives / glue / tiles

### OPTIONS / ACCESSORIES

<i>Different blades</i>	On Request
<i>Personal safety features</i>	On request / See manual

### MAIN ASSETS

- Fast and easy removal of all kind of flooring materials.
- Very compact, goes through standard doors & elevators.
- Zero turn radius, ergonomic design for safe and easy manoeuvring, non-marking high speed tires.
- Total freedom of movements, no electric cable.
- Complete hydraulic control (forward and backward)
- Powered by a high-duty battery, running time up to 10 hours. Charging up to 6 hours.

- Minimum average life on batteries is 1,5 year.
- Very high output compared to manual material removal and 30% more efficient than the electric version.
- Fast return on investment: maintenance-free hydraulic components, no belt and gear.
